

...going to Moldova

Examination Table

The Winston-Salem Sister Cities organization has partnered with Counterpart International in organizing a donation drive to send needed technical equipment to The Republic of Moldova. Winston-Salem Sister Cities, Wake Forest University, N.C. State University, and Moore Regional Hospital have collected over 100 computers, equipment and office equipment for shipment to Moldova on July 9, 2004. The drive, which has been in progress for six months, will provide valuable tools and equipment for use at the Moldova Medical University and the City Library of Ungheni. The total estimated value of the shipment was over \$30,000.

Photos are of volunteers who helped load the donations, the packed container, and Ruben Gonzales, Sister Cities Coordinator for Winston-Salem. You can call Ruben at (336) 747-7474 for more information.

Winston-Salem Sister Cities thanks everyone for their hard work.
